

BRAND X HUARACHES

Established 1973

Brand X Huaraches are simply the best and most comfortable hand crafted huaraches available in today's market—often imitated; never equaled. Every pair is woven by hand right to their vegetable tanned leather insoles with a single unending strand of the same leather. We use only the best leather which molds to the shape your feet and wicks away perspiration keeping them cool, dry and comfortable. Our huaraches are available in a rainbow of vibrant colors. The cushy midsole shapes to the bottoms of your feet putting a spring in your step while the fashionable lightweight outsoles provide durable stability. Brand X Huaraches are designed for self assured women and men who want to distinguish themselves with the tasteful way in which they dress.
